**Introduction to Philosophy of Physics**  
USI, Spring 2026

## Website

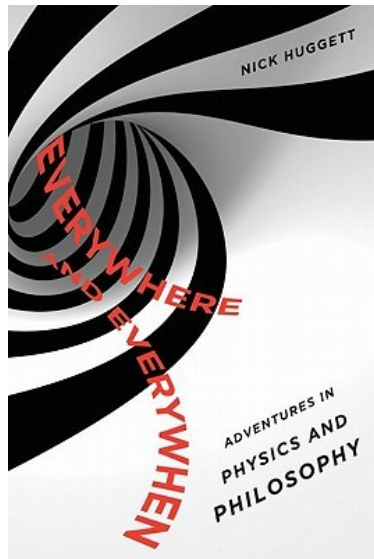

[http://wuthrich.net/teaching/\\_USI\\_PhilPhys\\_2026.html](http://wuthrich.net/teaching/_USI_PhilPhys_2026.html)

On this site, you will find:

- course description
- bibliography with link to icorsi
- course requirements and evaluation
- teaching materials (e.g. with links to these presentations slides in pdf format)
- practical information (contact, etc.)
- and the [course syllabus](#)

Office hours: by appointment only

✉ [christian.wuthrich@unige.ch](mailto:christian.wuthrich@unige.ch)

Course readings are available at icorsi:  
<https://www.icorsi.ch/>

# Course requirements and evaluation: essay

- The grade for this course is based on an essay of approximately 3,000 to 3,500 words.
- The paper, including a word count, is to be submitted by **30 April 2026** via icorsi.
- The **use of Gen AI tools** for drafting the text or for grammatical and stylistic corrections is prohibited. Any other use of Gen AI tools must be mentioned, specifying which tools were used for which activities and for which parts of the paper.
- I expect to receive essays which are well-structured, clearly argued, and show signs of independent thinking.
- **This is a finger exercise, not the commission of a symphony.**
- **Topics:** see document on course website
